EDUCATION

Assiut University

Bachelor of Science in Computer and Information Science
GPA: 3.82

Assiut, Egypt

Aug. 2024 – July 2028

EXPERIENCE

Front-End Web Developer Intern

Digital Egypt Pioneers Initiative (DEPI)

- Developed a restaurant website template using HTML and CSS only.
- Created a personal portfolio template showcasing projects and skills.

December 2025 – Present

Cairo, Egypt

Python Developer Intern

National Telecommunication Institute (NTI)

- Learned Python programming and object-oriented programming (OOP) concepts.
- Developed a book library application using OOP in Python.
- Completed a project using Matplotlib for data visualization.

August 2025 – September 2025

Cairo, Egypt

COURSES AND CERTIFICATES

Problem Solving :

ICPC Assiut

Learned algorithmic problem solving and competitive programming techniques.

April 2025

Certificate :

ECPC Qualification - Center 85

Completed the ECPC qualification focused on programming fundamentals and contests.

Basics with Helpers :

Assiut University

Studied foundational programming concepts with practical helper tools.

Programming Using Python :

NTI, September-2025

Trained in Python programming including object-oriented concepts and applications.

PROJECTS

Restaurant Website Template | Html, Css, Bootstrap

Jan - 2025

- Designed and developed a fully responsive restaurant website template using HTML and CSS.
- Ensured cross-browser compatibility and mobile-friendly layout for optimal user experience.
- Implemented clean and modern design principles focusing on usability and accessibility.

Smart Library System | Python, OOP, GitHub

Oct - 2025

- Developed a Library Management System using Python and Object-Oriented Programming (OOP) principles.
- Implemented core functionalities for librarian role: adding/removing books and members, viewing inventory and member lists.
- Enabled members to borrow, return, and view books efficiently.
- Applied key OOP concepts: encapsulation (private book ID), inheritance (Member and Librarian classes inheriting User), and abstraction (clean, modular design).
- Planned polymorphism as a future enhancement.

SKILLS

Soft Skills

- Communication
- Teamwork
- Problem Solving
- Time Management
- Adaptability

Technical Skills

- Programming Languages: Python, C++, JavaScript
- Web Technologies: HTML, CSS, JavaScript, React, Bootstrap
- Version Control: Git, GitHub

Languages

- Arabic (Native)
- English (Good)
